Forecast For Northwest England
Issued by Met Office Exeter
at 0400 on Thursday 07 Oct 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Mostly cloudy and breezy, with occasional rain.

Today:
Most of the region will see a predominantly cloudy day with occasional rain, although this becoming rather more persistent over the Cumbrian Fells. Driest towards the south. Breezy and feeling quite warm for the time of year. Maximum temperature 20 deg C (68 deg F).

Tonight:
Staying largely cloudy with further light rain or drizzle at times, mainly across Cumbria. A few clearer breaks developing at times further south. Very mild overnight. Minimum temperature 13 deg C (55 deg F).

Friday:
Early mist and low cloud soon giving way to a fine and dry day for Friday, with spells of sunshine. Another warm feeling day with lighter winds for most. Maximum temperature 21 deg C (70 deg F).

Outlook for Saturday to Monday:
Some patchy light rain sinking south on Saturday with brighter conditions developing for Sunday. Cloud and rain returning on Monday. Temperatures coming down a little.
